

Align Illustrations with the Way Products Are Sold

ForeSight® is an intuitive and responsive sales illustration solution that supports multiple lines of business across diverse distribution channels, advancing the way insurance and retirement products are quoted, marketed, illustrated and sold. With robust rules, pre-built sales tools, a customizable user experience and content branding capabilities, ForeSight delivers a dynamic and guided sales process, producing compliant and compelling illustrations for new business, inforce and multiple product sales. ForeSight provides robust illustration capabilities that enable advisors to quickly access and showcase your product strengths and provide holistic financial solutions to meet clients' needs.

One System - All Lines of Business - Connected and Disconnected Access - Your Product Uniqueness

Life, Annuity, Long-Term Care, Disability Income, Critical Illness

Get Products to Market Faster

ForeSight provides carriers advanced features and unique system customization to support diverse channel, branding, product and process requirements, getting products to market faster and advancing the way distribution promotes and sells products. Make it easy for your sales force to highlight your product uniqueness and sell products with ForeSight robust illustration capabilities and dynamic guided illustration process.
